Amendments to the Specification

Please add to the Description of the Drawings on page 16, before "figure 3...," the following text:

figure 1a shows a cross section of a typical electroluminescent device for emitting green light;

figure 1b shows the energy levels across the device of figure 1a;

figure 2a is an energy band diagram for a heterojunction of type I, in which the LUMO and HOMO levels of one material lie within the LUMO-HOMO energy gap of the second material;

figure 2b is an energy band diagram for a heterojunction of type II, in which the minimum energy difference between the highest HOMO state and the lowest LUMO state is between levels on different sides of the heterojunction;
